

CONTRACT LABOUR SERVICES

INFRATECH

CORPORATION

EFFICIENT SOLUTIONS. FOCUSED RESULTS.

WHY CHOOSE INFRA-TECH?

Infratech is a private Canadian Corporation that is focused on providing world class products and services to our global Client base. Our group offers 25 years of leadership and integrity to your growing personnel requirements.

At Infratech, we place safety as a premium standard. Infratech is COR certified and an IRP 16 registered member. Our dedicated supervision for safety training, operations training scheduling (SAIT GPO and PFO programs) and safety administration makes us a leader in contract staffing.

We can provide personnel in all disciplines. This includes engineering, drafting, welding, operations staff, technologists, site supervision and administration, to name a few.

Infratech is focused on keeping your assets healthy, productive and profitable. If you are looking to fill a vacant position or create a new one, or just need short term site-specific resources, let us help your team. At Infratech, we take pride in providing Efficient Solutions and Focused Results.

OTHER PRODUCTS & SERVICES

Our group also offers combustion process and incineration related products manufactured to exacting specifications. Our incinerator designs are application specific, allowing for cost efficient and environmentally sensitive combustion solutions for solid, liquid and gas waste. We also provide platform and mobile incinerators, as well as a variety of optional equipment and related technologies.

In addition to our incineration products we provide state of the art infrared imaging and thermographic consulting services to industry. Our experienced technicians are able to provide infrared inspections, IR scanning of heater furnace tubes, refractory, and electrical systems. Infratech also provides industry leading infrared gas leak detection services.

With in house manufacturing, CAD technology and dynamic consulting services we are able to satisfy a variety of demands across a broad business spectrum.
