

**Infratech** Has served Canada's oil and gas industry for over 34 years. We have always pushed to be a leader, not to just follow on the easiest or latest trends. Infratech only hires personnel with experience in the oil and gas industry. In response to requests from our long-term clients, we now offer MSAPR Part #2 engine Nox testing. Making us Canada's first Full-Service emissions management company.

## Benefits

- Have all your fugitive and Nox emission test completed in one visit with one crew
- Eliminates hassle of multiple vendors on site
- Reduces cost by reducing mobilization
- Rapid response time and report turnaround
- Scalable, we can offer a program designed to fit your needs.

## Standards

All testing is completed using the ASTM 6522-11 testing standards.

Each test includes a detailed report of the testing which includes:

- O2 Corrected NOx measurements (PPMVD15%)
- All pre and post-testing calibration reports
- Complete testing data for the client's reference
